- **Adequate safety precautions shall be maintained during shipment and handling to prevent dissemination of disease.**
- With the use of this permit I, EMILY MCCUTCHEN, Permittee, acknowledge that the regulated material(s) will be imported/transported within the United States in accordance with the terms and conditions as are specified in the permit. The Permittee is the legal importer/recipient [as applicable] of regulated article(s) and is responsible for complying with the permit conditions. The Permittee must be at least 18 years of age and have and maintain an address in the United States that is specified on the permit; or if another legal entity, maintain an address or business office in the United States with a designated individual for service of process; and serve as the contact for the purpose of communications associated with the import, transit, or transport of the regulated article(s). **Note: Import/Permit requirements are subject to change at any time during the duration of this permit.
- ***Materials shall be consigned directly to the permittee address specified above.
- It is incumbent upon the permittee to uphold proper biosafety procedures and protocols to protect human and animal health as per institutional policy and recommendations published in Biosafety in Microbiological and Biomedical Laboratories, current edition.
- Each shipment shall be accompanied by an ORIGINAL signed document from the producer/manufacturer confirming that the material is of U.S. origin.
- [This certification must CLEARLY correspond to the shipment by means of an invoice number or shipping marks or lot number or other identification method.]
- This permit DOES NOT allow transport of any agents: 1) exotic to the United States; 2) originating from outside the United States; or 3) Select Agents or nucleic acids as regulated under 9 CFR 121.
- Transported material is for DIAGNOSTIC AND PUBLIC HEALTH PURPOSES ONLY (i.e. serotyping, antigenic characterization, sequencing, and other genetic characterization of the agent).
- This permit DOES NOT authorize direct or indirect exposure of or inoculation into laboratory and domestic livestock, (including but not limited to: birds/poultry, cattle, sheep, goats, swine, and/or horses). Work shall be limited to *in vitro* uses only.
- Materials, derivatives, packaging, containers, and all equipment in contact with the imported products shall be sterilized or considered a biohazard and disposed of accordingly.
- Work with the permitted material shall be performed in accordance with the condition requirements described in this permit. Subsequent distribution to another state is prohibited without prior authorization of APHIS (in the form of an interstate transport permit, written correspondence, or
